Project proposals

Now it is time to take a decision about your project proposal.

Consider:

- Task
- Problem to solve
- Topic
- Personal background

Related paper

A related paper will be assigned based on your choice.

If you want, you can select one by yourself.

Groups

Minimum 1 person

Maximum 4 persons

The challenge level must be proportional to the number of components of the group in order to obtain a good grade.

Possible topics

- Action/Object recognition
- Object detection
- Object tracking
- Reidentification
- Image processing
- Context analysis
- Cross-topics
- …

Examples

- Mask detection
- Underwater image restoration
- Aereal images stiching for anomaly detection
- Person pose estimation while rehabilitating
- Face recognition in extreme image conditions (hard noise)
- Image labeling based on the context
- …

Expand your imagination
